"Los Cielos" *The Heavens*

Major works by
Linda Vallejo

The "Los Cielos" series seeks to integrate my understanding and experience of ceremony, my personal love of nature and my personal healing through nature. Often in sharing these paintings with others, I am told deeply personal stories of vision, catharsis and healing. One of my goals as a painter has been to touch the collective unconscious and I believe "Los Cielos" has been successful in reaching a place deep within the viewer.
