***Galeria Las Americas celebrates its new location in
SANTA MONICA***

*Galeria Las Americas stands alone in its vision to provide a professional gallery space for
contemporary Chicano and Latino Americano artists*

*We strongly believe that the art work being produced is of
great value to American and international history and culture*

We have always depended on those individuals who have invested and supported our plan to create a new Chicano and Latino collectorship, who in the future would endow major institutions with their collections. We are indebted to each and every one of you for your support.

We have chosen a move to Santa Monica to be surrounded by other galleries, art connoisseurs and enthusiasts, and the kind of traffic that will make it possible for us to reach our commitment of sticking with it until the turn of the century! You can help to make our move a complete success.

*"Now is the time to remember the artists of our epoch,
those visionaries that shared the 20th century with us.
We promise to make you proud of our professionalism, strength
and resolve to make this unique dream a reality!"*
