

BUILDING BRIDGES

IN TIME OF WALLS:

CHICANO/MEXICAN ART FROM LOS ANGELES TO MEXICO

As part of its holistic approach to health care, AltaMed Health Services exhibits an art collection throughout all its clinics and service sites. The subjects reflect AltaMed's diverse Latino, multi-ethnic and underserved communities and have been curated to ensure that patients feel a sense of pride and connection to their community health center.

In order to advance the visibility, understanding, and appreciation of Chicano and Latino art, *Building Bridges in Time of Walls: Chicano/Mexican Art from Los Angeles to Mexico* highlights artists' cultural connection between their Mexican heritage and American experience. Art has always been a reflection of the issues surrounding Society and the exhibit aims to break down the walls, both physically and figuratively, that separate us.

The roster includes over 20 nationally and internationally renowned artists. Paintings, sculpture, photography, video, and mixed media come together to illustrate a crucial detail about Chicano artists: they are doing something different with respect to cultural identity, social commentary, political protest, and personal expression.
