

"TAMALADA"

22" X 29" LITHOGRAPH

CARMEN L. GARZA

The artwork of Carmen Lomas Garza presents us with the enlightening tradition of Chicano life in Texas. In scenes taken from personal experiences, as in "La Tamalada", we are invited to participate in a custom still meaningful today. These images have the power to touch us with feeling and emotions about our own families and memories. Carmen helps us to enter into a world of images well chosen from different aspects of Chicano/Tejano life as in "Cumpleanos", "Las Peleonas", "Lessons" and "Cake Walk".

During the near future, Carmen Lomas Garza will have a one woman exhibit travelling in several museums in the United States. She is already well represented in major collections and in group exhibitions of Chicano art touring museums in the U.S. and abroad.

ROBERTO DELGADO

Roberto Delgado is an artist of great maturity and complexity. He has a Masters of Fine Arts from UCLA. His murals and paintings are investigations in the aesthetics of formalism in the visual arts. He also searches for new vibrant images and textures in monotypes and serigraph prints. Roberto frequently creates surprising and mature results. His themes are depictions of the human condition in the world. His murals can be enjoyed in Mexico, Nicaragua and the United States. His integrity as an artist has not allowed him to follow movements, but to develop an individualistic style and statement.
